## SUMMARY

Rising new developer, expected to graduate code school in June 2019. Background in customer service who demonstrates communication and attention to details skills learned from that industry. Innovative problem solver with fresh and creative ideas.

## EDUCATION

**Tennessee Online Public School** - Memphis, TN

May 2016

- Diploma

**Code Crew** - Memphis, TN

Graduate June 2019

- JavaScript Certification

## RELEVANT EXPERIENCE

**The Collective**

October 2018 - Present

Leader

Memphis, TN

- Engage and collaborate with colleagues in professional development activities, including seminars, discussion groups, workshops, and individual and group reflections, in order to gain career readiness skills
- Network with different professionals in the city to establish relationships that will further promote career advancement

**2019 Game Jam**

January 25-27, 2019

Developer

Memphis, TN

- Built a team of developers, designers, and sound engineers to collaborate on a video game which we had to code and design within the weekend
- Network with various kinds of tech designers in order to encourage collaboration in the state of Tennessee between coders, graphic designers, and sound engineers.

**Start-Co Mobility Hackathon**

March 13-17, 2019

Lead Developer

Memphis, TN

- Lead a small team of 5 to create an app that allowed you to pay your bus fare with your phone using a new language none of us knew and we only had a weekend to do so. Our team won 3rd place against developers who have been writing code for years
- Taught the developers under me how to use react native, and the snack expo interface while assisting in bug fixed and other problems they did not understand

## SKILLS

JavaScript | Python | PHP | React | MERN | Django | SQL | Full-Stack Development
